

I am strongly opposed to expanding the number of media outlets one owner or company can own. I would strongly favor reducing by half the current number allowed to one owner. We need more voices not less. We are a diverse nation with a complex culture. I feel I am unrepresented in most of what is available to me. News reporting especially has become trite, sensational, and narrow.

In addition, why the hurry for this vote? A postponement would give some credibility to the statements that the good of the public is being served.
